

RB SERIES

ECONOMICAL ROTARY BLISTER SEALING MACHINES

- Four and six - station models offered
- Smooth and reliable table operation with heavy-duty cam indexer and variable frequency drive
- Heavy-duty Industrial design for long life
- Excellent for contract packagers, workshops and OEM's
- Economical price without compromising quality or features
- PLC machine control with LCD HMI

Description

Starview's RB Series rotary type heat sealers are designed for medium to higher volume production requirements where an economical but simple to operate machine is required. These machines may be used for conventional carded blisters, full face blisters as well as applications using Tyvek, foils and other heat sealable lidstock. The RB Series units are available as four (4) station models with a 14" x 18" sealing area and six (6) station models with a 12" x 14" sealing area. The standard machines feature one sealing station with the remaining stations used for load/unload stations. Optional features for Starview's RB Series include casters for portability.

Specifications

<i>Model</i>	RB4-1418	RB6-1214
Sealing area:	14" x 18"	12" x 14"
Total no. of sealing fixtures:	4	6
Open loading stations:	3	5
Maximum blister depth:	3.25"	3.25"
Avg. cycle speed:	1-8 cpm	1-8 cpm
Working height:	36"	36"
Approximate size:	52"W x 60"D x 54"H	52"W x 60"D x 54"H
Approximate wt:	1,000 LB.	1,000 LB.
